

Under the CloudMD Medical Assessment Division we have recently amalgamated our multiple Independent Medical Examination (IME) provider groups to support a unified service benefiting from a centralized infrastructure and resource network. Our expanded national roster of Medical and Allied Health experts providing comprehensive, accurate, and defensible reports is supported by our outstanding and knowledgeable intake teams. Our clinical professionals provide file triage, quality review of the reports, and act as a resource to assessors and referral sources.

CloudMD Software & Services Inc. (TSVX:DOC) group of companies was founded by medical experts and professionals with decades of experience, with a purpose of revolutionizing the delivery of healthcare; offering a suite of intuitive proprietary health solutions to empower healthier living. Whole-person, longitudinal healthcare is the future. CloudMD's team-based approach and use of proprietary software results in better and more efficient access to care, and improved outcomes.
